

UPCOMING FEATURE NOTIFICATION

Fleet lease & management

Our readers don't just read the NBR – they use it!

The NBR is a business tool used to make critical decisions and to guide companies, which means that our readers are deeply engaged with our content. They are part of a community dedicated to doing business intelligently, and are exactly the people our advertisers are trying to reach.

The NBR reaches both major corporates and SME clients, which makes this feature an ideal way to put your message in front of your specific target market.

Feature description:

Fleet leasing & management have grown enormously in this country of recent years as companies of all sizes find both cost saving and convenience in the wide range of offerings from leasing and management suppliers.

NBR motoring editor David Linklater looks closely at the offerings to find what is available. Other topics he may cover include:

- Whether economic growth is changing buying patterns
- Are companies choosing management options for fleets they own rather than lease?
- The rise of autonomous car technology – could that be an option for the future?
- How in-car technology is helping fleet drivers.

NBR special report

Fleet lease & management
